

Jobayer Alam

Product-Focused Software Engineer | Johor Bahru, Malaysia
Universiti Teknologi Malaysia (UTM) - BSc Software Engineering
Website: jobayeralam.com | Email: jobayer@example.com

EDUCATION

Universiti Teknologi Malaysia (UTM)

Bachelor of Science in Software Engineering (Expected 2029)

Academic Standing: CGPA 3.71 / 4.00 | Dean's List (2 semesters) | IELTS Academic 8.0

EXPERIENCE

Narmaa Transport - Software Development Intern (2025)

- Developed production web platform with React, TypeScript, and Tailwind CSS.
- Streamlined inquiries into a direct WhatsApp booking and lead qualification funnel.
- Architected strongly typed service catalogue and structured per-page SEO and OpenGraph metadata.

HONORS & AWARDS

Top 5 Finalist - Tencent Hackathon 2026 (Unsaid, Solo Developer)

Built an AI-powered conversational game using dynamic disposition state machines and constrained LLM output.

Top 5 Finalist - UTM Hackathon 2026 (Moonblade, Solo Developer)

Built a zero-dependency 2D action combat game in raw HTML5 Canvas with custom 60 FPS physics loop.

FLAGSHIP PROJECTS

ClawFit - AI-Assisted Nutrition & Fitness Platform (2026)

Full-stack application (Next.js, Fastify, PostgreSQL) with schema-constrained AI meal ingestion.

Narmaa Transport - Commercial Logistics Platform (2026)

Production client website with typed data models, responsive galleries, and WhatsApp lead capture.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, HTML5 Canvas

Backend: Node.js, Fastify, REST APIs

Database: PostgreSQL, Supabase

AI & LLM: AI APIs, Prompt Engineering, Structured JSON Schemas, AI-assisted workflows

Tools & DevOps: Git, GitHub, Vercel, Docker
